# Annual School 2009

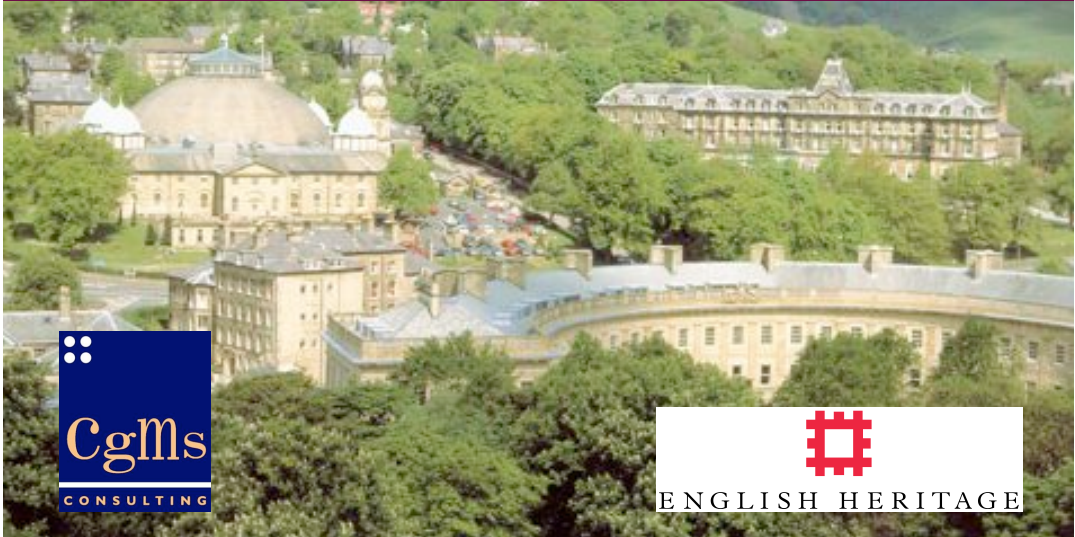

## FIT PAST – FUTURE PERFECT?

### Conservation: a key to sustainable design.

Thursday 11<sup>th</sup> June to Saturday 13<sup>th</sup> June  
Buxton, Derbyshire

The 2009 Annual School is an exciting opportunity to focus on the impact of climate change on the historic environment and to look for practical solutions to promote the sustainability of historic buildings.

**See [www.ihbc.org.uk](http://www.ihbc.org.uk) for details and booking**

This year's Annual School looks at the challenges of climate change and examines ways in which we can respond positively.

The School will provide an opportunity to hear about current initiatives and new approaches, to gain insights from recent projects and to consider ways of adapting and enhancing our historic environment in the future.

### **Who**

The programme of seminars and site visits is designed for all professionals working in the historic environment, in planning, architecture, urban design, heritage management, landscape or in other conservation projects and initiatives. The School welcomes people working in national and local government, private practice, education and voluntary bodies.

### **What**

The Annual School will bring together speakers from many backgrounds to talk about the potential impact of climate change. It will develop practical solutions to promote, protect and adapt our historic assets and address climate change.

### **Where**

The Annual School will be held in the historic spa town of Buxton, at the heart of Derbyshire's Peak District, that combines stunning scenery with magnificent architecture. For more information visit [www.visitbuxton.co.uk](http://www.visitbuxton.co.uk). The main venue for the School is the 4 star Palace Hotel.

### **How**

Places are limited so delegates should book as soon as possible. Special rates are available to those booking before 10<sup>th</sup> April.

Booking is on-line at [www.ihbc.org.uk](http://www.ihbc.org.uk) and then follow the link. If you prefer you may also book by telephone on 0131 558 1854.

# IHBC Day School

INSTITUTE OF HISTORIC BUILDING CONSERVATION

Friday 12<sup>th</sup> June  
Palace Hotel, Buxton

The Day School examines the challenges of climate change and looks for ways in which we can respond positively to it. The School will provide an opportunity to hear about current initiatives and new approaches, to gain insights from recent projects, and to consider ways of adapting and enhancing our historic environment in the future.

## Day School Programme

Classes and lectures will explore:

- Threats and opportunities: the historic environment and climate change
- Is conservation of the historic environment a sustainable activity?
- Climate change and the historic environment: a European perspective
- How can we make historic buildings even more sustainable?
- Building Research Establishment Environmental Assessment Method
- Climate change and designed landscapes
- Micro-generation and the historic environment
- Building Regulations and traditional buildings
- Sustainability and contemporary design
- Building materials and sustainability
- Current work at The Crescent, Buxton

The programme is subject to change.

See [www.ihbc.org.uk](http://www.ihbc.org.uk) for further details
