Structural repair of historic buildings

Ian Hume DIC CEng MStructE DiplConsAA IHBC
Former Head of Conservation Engineering at English Heritage

Join us for an in-depth, accessible look at the structural side of building conservation, from philosophy and techniques to causes and prevention. A full day with case studies and discussion.

A former chief engineer with English Heritage, Ian is a conservation accredited structural engineer with over 40 years experience. He now lectures on the structural aspects of conservation for students and professionals, as well as publishing on this specialist topic.

4 October 2018
Thursday, 9:30am to 4:30pm
Carlisle Civic Centre, CA3 8QG

Ticket: £25

Lunch and refreshments included
